

'First cut of genuine single window for investors by Mar-Apr 2021'

Goyal says officials looking at moving containers lying at various locations for free to meet shortage faced by exporters

OUR BUREAU
New Delhi, December 15
The "first cut" of the genuine single window for investments that the Department for Promotion of Investment and Internal Trade (DPIIT) is working on is likely to unfold by March-April 2021 and steps are under way to integrate various approvals and compliances both at the Central and State levels, said Commerce & Industry and Railways Minister Piyush Goyal.

"I hope that the first cut of a genuine single window can ease your compliance burden, help you promote your businesses, and focus on business, rather than government and government compliances," Goyal said, speaking at a seminar on India's 'Atmanirbhar

roadmap, towards a \$5 trillion economy' organised by Assocham on Tuesday.

Goyal said that DPIIT is making "genuine effort" to provide a single window by integrating all approvals amongst various ministries at the Centre, compliance of various laws in India, and also at the Central and local level.

Movement of containers
The Minister also said that he had instructed his office to take a call on the containers that were lying in various locations to see if they can be moved free of charge by the railways to help exporters deal with the shortage that they were facing.

"I am instructing my office to take a call on the routes

Officials have also been asked to expedite work on a policy for private ownership of railway networks, Goyal said

where the containers are lying and if they can be moved free of charge," he said.

Goyal also asked officials to expedite work on a policy for private partnership and ownership of railway networks.

Goyal also said that he had pulled up his officials for being slow on the policy and had set a December 25 deadline.

The Minister said that despite the Covid-19 disruptions, railway freight was down by just 4 per cent (till December 14) compared with the same period last year, and by February 2021, this difference, too, was likely to get bridged.

'Complete assistance'
The Minister, speaking at the

CII Partnership Summit earlier on Tuesday, assured foreign investors of complete assistance, partnership and involvement.

The Minister said that India has been systematically opening up to global investors and encouraging businesses through strategic relationships with different investment partners, strengthening its economic plans for the future.

"During the first nine months of this year, at the peak of Covid-19 pandemic, our FDI has grown. During the April-September period, FDI inflows are at \$40 billion, which has been higher than last year by about 13 per cent. Last year, we announced one of the most attractive tax rates available anywhere in the world at 22 per cent for businesses in India and 15 per cent for new manufacturing facilities set up after October 2019," he said.

'Enhanced UK-India business ties can lead to free trade pact'

OUR BUREAU
New Delhi, December 15

India and the UK are working towards an 'Enhanced Trade Partnership' next year which hopefully will be a stepping stone for a free trade agreement in the future, UK Foreign Secretary Dominic Raab has said.

"That (Enhanced Trade Partnership) can unlock huge opportunities for Indian and UK businesses, lowering barriers in areas like food and drink, healthcare and life sciences, IT, data, chemicals and financial services. I think there are exciting possibilities ahead," Raab said addressing a joint press conference with Minister of External Affairs S Jaishankar following their bilateral meeting in New Delhi on Tuesday.

The meeting focussed on the five themes of connecting people, trade and prosperity, defence and security, climate and health.

Raab is on a four-day official tour of India ahead of UK Prime Minister Boris Johnson's visit in January 2021 to participate in

UK Foreign Secretary Dominic Raab with S Jaishankar

the Republic Day celebrations and the UK's invitation to India to be a guest country at the G7 Summit to be hosted by the country next year.

10-year road map
The Foreign Secretary is due to meet Prime Minister Narendra Modi on Wednesday to discuss a '10-year roadmap' for a new era in the UK-India relationship, closer collaboration on an Enhanced Trade Partnership, and working together to end the Coronavirus crisis and tackle climate change. The UK Foreign Secretary pointed out that bilateral trade between India and the

UK was already growing before the pandemic and had posted an increase of 11 per cent (to about £24 billion) in the last fiscal. Making his observation on the visit, Jaishankar said that its timing was important as it was taking place when a post-Covid and a post-Brexit world were being looked at.

While the UK exited the EU on January 31, 2020, most rules and regulations guiding the relationship between the two remained the same during the eleven-month transition period which will end on December 31, 2020. "India-UK relationship, which was already big and growing, has the potential to be scaled up and the presence of the UK PM at the Republic Day celebrations would be, in a way, symbolic of a new phase of the relationship," he added.

Raab said that India-UK collaboration in the production and distribution of Covid-19 vaccines was a good example of what the two could do to transform lives of people around the world.

'Indian chemical sector can become global hub'

OUR BUREAU
New Delhi, December 15
Indian chemical and petrochemical sector has huge potential to emerge as global manufacturing hub, and the government was working on a plan to provide world class infrastructure and logistics for making this happen, said Minister for Chemicals and Fertilisers, D V Sadananda Gowda, said on Tuesday.

Talking at a virtual conference organised by Assocham in connection with its Foundation Week here, Gowda said this could be achieved if the industry and the government worked together. "The sector has great opportunity to leverage on its talent pool and resources to attain a successful position in the world market. India has been increasing its export of chemical products in the recent years, so growth will also be a factor of buoyant exports," he said.

India's long-term growth scenario, supported by strong macro fundamentals,

bodes well for chemical manufacturing companies. The chemical sector has a network of 200 national laboratories and 1,300 research and development (R&D) centres which provide a strong base to become innovation oriented.

Shifting focus towards R&D would also facilitate growing opportunities which could propel Indian chemical industry to become global manufacturing hub and penetrate global value chain, he added.

"The future of manufacturing sector in India is promising. Our manufacturing base has become mature and can rise up to occasion whenever necessary.... The government has taken several measures to boost competitiveness of the manufacturing sector. As a result of proactive and business friendly approach of the government, India had done extremely well in consecutive ease of doing business reports of the World Bank," the Minister said.

whenever necessary.... The government has taken several measures to boost competitiveness of the manufacturing sector. As a result of proactive and business friendly approach of the government, India had done extremely well in consecutive ease of doing business reports of the World Bank," the Minister said.

FSSAI INITIATIVE ON FOOD QUALITY

Scheme for hygiene-rating audit agencies launched

OUR BUREAU
New Delhi, December 15
In a bid to increase the number of recognised hygiene-rating audit agencies in the country, the Food Safety and Standards Authority of India (FSSAI) on Tuesday said that the Quality Council of India (QCI), at its behest, has come out with a scheme for the approval of hygiene-rating audit agencies.

This is being done after the FSSAI launched a certification system for restaurants, hotels and cafeterias among others under its 'Food Hygiene Rating Scheme'. Under this initiative, these food establishments will be rated based on food hygiene and safety parameters by recognised hygiene-rating audit agencies. The food safety authority believes this will enable consumers to make informed decisions about consuming food at outlets that have higher hygiene ratings and also incentivise food establishments to improve their hygiene ratings.

"The hygiene rating will be in the form of a smiley (1 to 5)

and the certificate should be displayed prominently in the consumer-facing area. The recognised hygiene-rating audit agencies will be responsible for verifying compliance with food hygiene and safety procedures laid by the FSSAI and get hygiene ratings," the food safety authority said in a statement.

Arun Singhal, CEO, FSSAI, said, "The Hygiene Rating Scheme can be instrumental in creating awareness amongst the consumers and developing a culture of self-compliance amongst food business operators."
